

ORIENTEERING INSTRUCTIONS

1. Install the **iOrienteering** app on your smartphone.
2. Open the app, and under “Getting Started” tap the “**Scan**” button, then scan one of the following QR codes to choose which course you want to do. This will load the course details into the app.

Woodpecker West - YELLOW

Woodpecker West - ORANGE

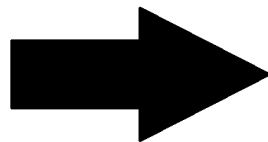

Woodpecker West - BLUE

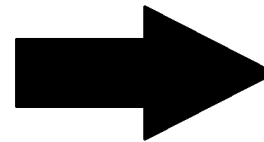

3. When you are ready to start your course, scan the “**START**” QR code below. As soon as you do, your official clock is running!
4. Scan the QR codes on the control marker ribbons as you find them to “punch in” at each control. The app will check your progress and compute your splits times, as well as show your total running time.
5. When you have found all the ribbons, come back here and scan the “**END**” QR code below. This will stop your official clock and compute your total course time.

START

Use your map &
compass to find
and scan QR codes
on all course
controls, **IN ORDER**

END

6. Upload your results and compare to your friends!
